

## Material - ASTM A 830 G10550

**Standard Specification For Carbon Steel Compositions For Forging To Hot-Rolled And Cold-Finished Plate and Steel**

**Group - Ferrous Mild Steel Alloys**

**Sub Group - ASTM A 830 G10550 Carbon Steel Compositions For Forging To Hot-Rolled And Cold-Finished Plate and Steel**

**Application - Intended for Valve, Pump, General Engineering, Automotive and Other Industries**

**Grade Belongs to the Industry - Plate and Steel**

| Chemical Composition |      |               | Heat Treatment                                                                                                                                                                                                    |  |
|----------------------|------|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
